app via Wi-Fi or Bluetooth

PULSAR MAX

Charging at home just got a lot more fun

New made-for-your-home colors

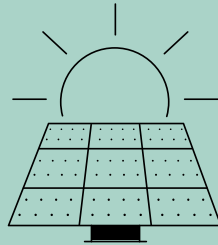

PULSAR MAX

Upgrade your experience with Wallbox Energy Management Solutions

Enjoy even more sustainable, cost-efficient charging at home.

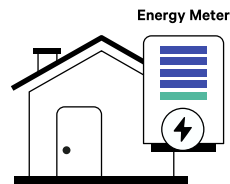

Eco-Smart Solar EV Charging

Use the surplus solar energy from your solar panels to charge your EV. Choose to charge with 100% solar energy, or a mix of solar and grid energy.*

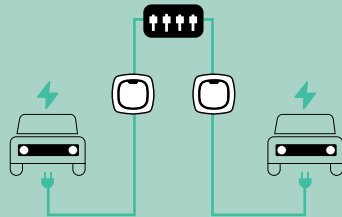

Power Boost Dynamic Load Balancing

Balance the available energy between your home and car, in real-time, so you can run your large appliances and still charge at high speeds! No need for costly upgrades to your electrical panel.*

Power Sharing Charge Multiple EVs

Install multiple chargers on the same circuit to distribute the available energy dynamically and charge all connected cars at once.

Ask your sales representative how you can upgrade your smart charging system today.

*Power Meter required.

MYWALLBOX APP

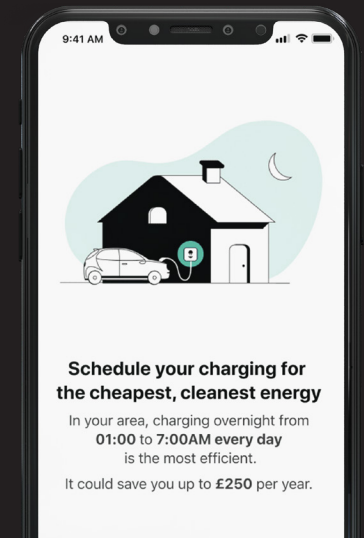

Control at your fingertips with the myWallbox app

- Monitor the status of your charger and control it from anywhere.
- Get energy use and spending statistics in real-time.
- Secure your charger with remote locking and unlocking.
- Access all Energy Management Solution features.
- **NEW!** Activate Halo Light Standby so the light will stay off until you interact with the charger.

Save while you sleep with easy scheduling

myWallbox provides an off-peak schedule suggestion right at onboarding to maximize savings. Set suggested off-peak schedules with one click.

Schedule your charging for the cheapest, cleanest energy

In your area, charging overnight from 01:00 to 7:00AM every day is the most efficient.

It could save you up to £250 per year.

PULSAR MAX

Product Specifications

General Specifications

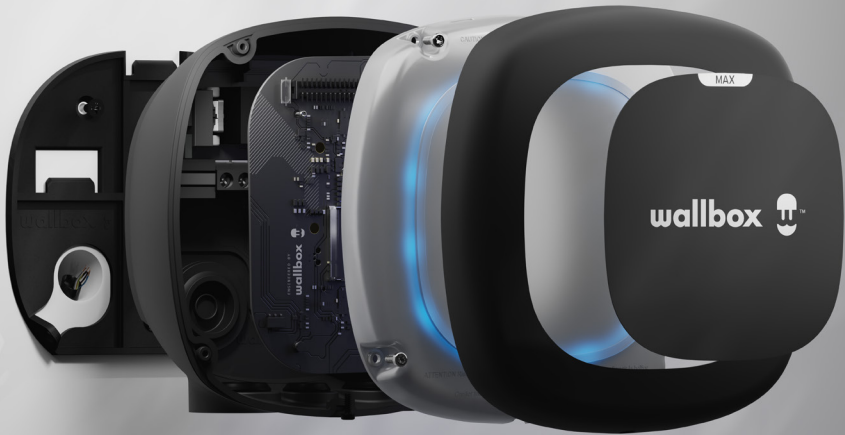

| | |
|---------------------------------|-------------------------------------|
| Cable Length: | 5m (7m optional) |
| Charging Mode (IEC 61851-1): | Mode 3 |
| Dimensions: | 198 x 201 x 99mm (without cable) |
| Weight: | 1.3kg (without cable) |
| Operating Temperature: | -25 °C to 40 °C |
| Storage Temperature: | -10 °C to 70 °C |

User Interface & Communications

| | |
|--------------------------|----------------------|
| Connectivity: | WiFi, Bluetooth |
| Communication Platforms: | myWallbox, OCPP 1.6j |

Electrical Specifications

| | |
|----------------------------------|----------------------------------|
| Rated Voltage AC $\pm 10\%$: | 7.4kW / 22kW |
| Rated Current: | 32 A (1P) / 32 A (3P) |
| Connector Type (IEC 62196-2): | Type 1 or Type 2 |
| Cable Width: | up to 13 mm ² |
| Configurable Current: | from 6 A to rated current |
| Rated Frequency: | 50 Hz / 60 Hz |
| Protection Rating: | IP54 / IK10 |
| Surge Category: | CAT III |
| Residual Current Detection: | DC 6 mA |
| RCCB: | External RCCB Type A required |
